Frequently Asked Questions

What circumstances are appropriate for a Late Withdrawal petition to be approved?

The Late Withdraw process allows students to petition when *documentable unforeseen and/or extenuating* circumstances occur that impacted the student's ability to be successful in each semester. Pursuing the late withdrawal from a course is not intended to be used as a method by which a student remains in a class beyond the withdrawal deadline to see what grades they earn so that they can decide whether to request a withdrawal later. Here are some example reasons to petition for a Late Withdrawal:

- Military deployment during the semester

- Documented medical reason that is preventing a student from being successful in their courses and/or prevented them from being able to withdraw prior to the withdrawal deadline

- Death of an immediate family member during the semester in question

- Involuntary change in work schedule after the beginning of the semester, or a change that was required because of financial difficulties that occurred after the semester began

Is my petition more likely to be approved if I am just asking for one or two courses?

If you are requesting a selective withdrawal (i.e., not an attempt to withdraw from all courses), then you must provide explanation and documentation about why/how your circumstances are specifically affecting the course(s) listed on your petition, and not the others. A total withdrawal from a semester is an option if your documentation is supportive.

My petition is with SOCAT. How am I able to request a status update on my petition?

Contact that office directly (CAS ARC is unable to view any petition under confidential review by SOCAT):
