

What will I be studying?

Pre-Health Professions (PPS) is not a major, rather a track to explore majors at USF. Students who declare this track know they want to pursue a health professional career but are unsure about the best major for their future goals.

You will take the prerequisite science courses that your intended health profession requires, while participating in activities to find where you fit at USF!

Career Ideas!

Physician
Dentist
Veterinarian
Chiropractor
Podiatrist
Optometrist
Pharmacist
Physician Assistant
Physical Therapist
Occupational Therapist
Anesthesiologist Assistant

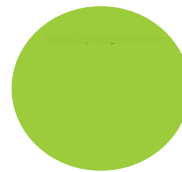

**Please note this is not a complete list of careers you can go into with this track.
