

FIELDWORK AND PRACTICUM SEMINAR **FAQS**

What is Concentrated Supervised Fieldwork?

The Behavior Analysis Certification Board (BACB) require direct supervision to complete practical fieldwork in applied behavior analysis under a qualified supervisor. The BACB offers two types of supervised fieldwork. USF follows the Concentrated Supervised Fieldwork path as herein defined, which accrues 1,500 hours. For more information on fieldwork, check out the [BACB's BCBA Fieldwork Requirements](#).

Who can supervise me?

A Board Certified Behavior Analyst (BCBA) or Board Certified Behavior Analyst-Doctoral (BCBA-D) who has been certified for a least one year and has met the supervision requirements outlined by the Behavior Analysis Certification Board can provide direct supervision. If you are not currently supervised by a BCBA/BCBA-D and are looking to find a supervisor, check out some of the resources below:

- [BCBA Registry](#)
- [Current USF Sites](#)

Are there any currently approved supervisors/sites?

Yes, there are supervisors approved throughout Tampa, Florida, and across the United States. You can see some of the approved sites [here](#). We are very willing to work with an qualifying BCBA/BCBA-D to become an approved supervisor for USF. If you are currently not supervised by a BCBA/BCBA-D, that's okay! The Online MA in ABA Practicum Coordinator will reach out to the supervisor to begin the approval process once an applicant is admitted to the program.

I have a qualified supervisor. Now what?

Fill out the [Practicum Supervisor Form](#) and then upload the document to our online application.

Can I apply before I have a fieldwork site/supervisor?

Absolutely! You can begin your application now, but keep in mind that you will need to complete your application, including submission of the Practicum Supervisor Form, before the application deadline.

What is Practicum Seminar?

Practicum Seminar guides students in accruing the needed experience hours for the Board Certified Behavior Analyst (BCBA) exam. Seminar also includes professional training, current industry news, and a forum to share your experience in the field, and a place to present data on behavior change. Additionally, students will participate in group supervision one time per week throughout the semester. Practicum Seminar is taken every semester and students must accrue a minimum of 250 experience hours each semester to pass the course.

How many experience hours are required?

Students must accrue 1,500 Concentrated Supervised Fieldwork hours in order to graduate. This means students will also be eligible to sit for the BCBA exam upon graduation. Given this, students should accrue about 20 hours every week in order to graduate in 5 semesters. Students are required to accrue a minimum of 250 concentrated supervised fieldwork experience hours by the end of each semester and students should be accruing 300 hours each semester in order to graduate in 5 semesters.

Can experience hours be completed where I currently work?

Can these be paid?

Yes, if there is a BCBA supervisor willing to provide you with Concentrated Supervised Fieldwork, you could complete your experience hours here at work. They can be paid, unpaid, or a combination of paid and unpaid hours. List your job on your resume to show this to the student.
