## UNIVERSITY OF SOUTH FLORIDA

Major Research Area Paper Presentation

A Survey of Languages for Specifying Composition of Obligation Policies by Yan Albright

For the Ph.D. degree in Computer Science & Engineering

Existing Policy Specification Languages (PSLs) support specifying obligations, which are actions that must be executed in addition to traditional permit or deny decisions. However, major challenges remain in handling compositions of complex obligations, including how to effectively i) resolve conflicts between policies and obligations, and ii) enable policies to react to the obligations of other policies.

May 22, 2017 11:00 AM ENB 313

THE PUBLIC IS INVITED

Examining Committee

Jay Ligatti, Ph.D., Major Professor

Adriana Iamnitchi, Ph.D.

Yicheng Tu, Ph.D.

Sean Barbeau, Ph.D.

Brendan Nagle, Ph.D.

Miguel Labrador, Ph.D. Graduate Program Director Computer Science and Engineering College of Engineering Sudeep Sarkar, Ph.D.
Department Chair
Computer Science and Engineering
College of Engineering

Disability Accommodations:

If you require a reasonable accommodation to participate, please contact the Office of Diversity & Equal Opportunity at 813-974-4373 at least five (5) working days prior to the event.
